

## Curriculum vitae – Josef Erneker

Temporary address    Praha, Chodov

Contact                    josef.erneker@gmail.com, +420 723 172 832

### Vision

During my studies I was searching for the field I would like to settle in. I went from being an IT guy through international area and finance to reenter IT world. As for the first try I wasn't content in IT because it seemed very boring at Datalite from some point on, I had no vision for myself there so I thought I will find it elsewhere. The excursion through fields was interesting and it gave me a lot. Anyway my nature led me to improving things, to implementing some more efficient ways and ideas and for that IT is simply the best. My vision for some time now is to be proficient and useful in IT, realizing my own ideas as well as ideas of other people.

### Full-time Employment history

2.2015 - now                    **Systems Integrator at Y Soft Corporation**

Deployment of products, creation and maintenance of installers and installation packages. Automation of testing of GUI installers. Using: NSIS, Gradle, Python, Bamboo, Jira, Stash, Git, scripting native languages (Bash, Batch, PowerShell). Scripting helpers in Ruby.

3.2014 - 10.2014              **Ruby developer at Vigour a.s.**

Development of uuApps on UU platform in (Ruby). uuApp consists of scripts in Ruby, which determine functionality of events in the app, and look which is created designer. An application had an extent of 5000 to 20000 lines in Ruby communicating with other apps and objects in the platform. Using Ruby (IDEA - Ultimate, Nokogiri), JSON, XML, XPath.

*"Josef and I worked together at Vigour and I'm really glad, I've had the pleasure of knowing him. Josef is a talented, hard-working, enthusiastic guy and would be a great asset to any team."* Ondřej Šubrt, Ruby developer at Vigour a.s., former senior co-worker

### Projects

Apart from my work duties I spend time lately on integrating Asana x Jira x Bamboo x Stash etc. through Alfred in Ruby, I have published a [workflow](#) and others are coming. I am trying to write plugin for IntelliJ Idea to better support NSIS language and I am working on my web in Ruby on Rails. You may see a significant part of all this on [my Github](#).

Framework for uuApps development on UU platform (Vigour a.s., July - October 2014)

Includes much improved testing, automatic creation of common prerequisites and system of before testing checks and automations. It was written on my own initiative and in my free time. The extent of the project I can measure as 4000 lines of code and about 200 hours spent. The software now serves my former employer.

*"This supporting tool saves work of the whole team while developing and testing our applications. It allows uuApps Developer to get rid of repeating work and thus enhances efficiency of the team."* Michal Zajac - Unicorn Neatcode director - former employer

## Minor Employee Experience

9.2008 - now                    **Chess Coach for private persons, basic schools, chess clubs**

Coaching of individuals and groups, children mostly, in Czech and English.

1.2009 – 10.2009            **Java/front-end developer at Datalite s.r.o.**

Development of enterprise intranet applications using HTML, CSS, Java (Spring, Hibernate, NetBeans, MVC, J2EE), SQL (Oracle), Tomcat.

## Education

2014 - 2015	ČVUT - Faculty of Information Technology, master program
2012 - 2014	VŠE - Faculty of Finance and Accounting, Finance, master program
2010 - 2012	VŠE - Faculty of International Relations, International Studies – Diplomacy - <i>bachelor title</i>
2008 - 2010	VŠE - Faculty of Informatics and Statistics, Informatics
2004 - 2008	SPŠST Panská in Prague - Technical Lyceum - graduation

## Professional aiming

I'm interested in positions demanding learning, insight and finding and thinking through more efficient and better ways.

## Skills

Ruby	Intermediate (IDE: IDEA - Ultimate - Ruby plugin comparable with RubyMine, Nokogiri, JSON, XML, XPath, Ruby on Rails)
Java	Intermediate (J2EE, IDE: IDEA - Ultimate, Eclipse, NetBeans, BlueJ; technologies: Swing, JDBC, Hibernate, Spring Core, Spring AOP, Maven, MVC and other design patterns, Tomcat, SQL)
HTML, CSS	Intermediate
NSIS, Gradle, Git	Intermediate
Typing by all ten	250 keystrokes per minute
MS Office	Advanced (macros, contingency tables, animations)
Windows, Mac OS	Advanced user skills
Czech	C2
English	C1
Russian	in 2012 considered B1, now rather A1
Driving license	Group B
Chess	Master title, elo 2251, II. trainer class, former Extraliga player

## Interests

Friends, sport, computers (Ruby, Ruby on Rails, web, Code School), Coursera courses, personal development.
